BELIMO AMERICAS: HOW AN HVAC MANUFACTURER SPEEDS UP ORDER PROCESSING TIME FROM **10 MINUTES** TO **10 SECONDS**.

Company Name | Belimo Americas

**Industry** | Manufacturing – HVAC

**Equity Type** | SWX: BEAN

**Solutions** | Internet of Things, actuators, valves, sensors, retrofit, and systems

# OVERVIEW AND CHALLENGES STREAMLINING SUPPLY CHAIN MANAGEMENT PROGRAMS

Based in Danbury, Connecticut, Belimo Americas is a division within BELIMO Holding AG, an established international group of organizations that produces innovative HVAC solutions while providing excellent customer satisfaction. The HVAC leader is responsible for serving building contractors, engineering teams, and contract consultants on time without any errors so that they can fulfill residential and commercial building projects on schedule. Previously, Belimo Americas utilized multiple external supply chain

ERP Integrated Solutions, Inc. is an SAP Silver Partner that provides ShipERP™, the SAP-integrated shipping and compliance software dedicated to increasing supply chair efficiencies for businesses.

MEHRWERK is German-speaking partner and general importer of ERP Integrated Solutions for the DACH region. As an SAP Gold Partner, MEHRWERK accompanies companies throughout the entire project.

management programs to fulfill sales order rocessing tasks. The lack of streamlined collaboration between these programs made it difficult to improve on its core values – operational excellence, redibility, and trust.

"The combination of all [ShipERP™] modules helped us provide great customer service and follow the company-wide CESIM (Comfort, Energy, Safety, Installation, and Maintenance) methodology"

- Kumar Prashant, Belimo Americas' ERP/SAP Solutions Architect An example of this involves the lack of consistent freight rates provided to customers, which challenged customer service and satisfaction rates. Furthermore, Belimo Americas required rate shopping, high visibility, an enhanced SAP Web Service, and efficient interconnectivity in an integrated shipping software to deliver products faster than ever.

#### SOLUTION

# INTRODUCING INTEGRATED SHIPPING SOFTWARE SOLUTIONS

To organize a fully-configurable solution for various warehouses that process and ship orders, ERP Integrated Solutions worked with Belimo Americas to understand the heart of their supply chain management process and the business needs. The HVAC supplier opted for the SAP Certified ABAP solution called ShipERP™, which includes shipment tracking, rate shopping, sales order integration, shipment planning, transportation management, and address validation.

## **RESULTS**

After installing ShipERP, the fully-integrated and fully-configurable solution, Belimo Americas was able to take advantage of real-time integration with shipping carriers, streamline shipping processes, reduce shipping costs, and generate real-time visibility.

#### BENEFITS

## Enhanced SAP Web Service | Efficient interconnectivity | Decreased order processing time | Rate shopping | High visibility | Track & Trace with Proof of Delivery

Integrating the solution coordinated well with warehouse automation, increasing the number of orders processed per day by over 30 %. Furthermore, Track & Trace and Address Validation facilitated in delivering products to high priority projects on time and to the correct location so that projects can stay on schedule. With robust ShipERP reporting in hand, Belimo Americas was also able to successfully negotiate shipping prices with carriers, securing additional barging for select small parcel services and paying base LTL service prices for express LTL services. "The solution is impressive. I can easily give reports to upper management. It's highly impressive!"

declares Prashant.

### THE FUTURE

The clear financial and efficiency gains demonstrated by Belimo Americas' use of the integrated shipping software encouraged its parent company Belimo Holding AG to apply the ShipERP solution to its other international divisions. With real-time integration with shipping carriers, Belimo Holding AG is optimistic
